“Larry Robbin is a national thought leader in innovation, inclusion and advancement on the subject of getting youth connected to education and employment opportunities. He has done many webinars for the NYEC and every one of them has provided high-quality value to policymakers, practitioners and young adult leaders. From his decades worth of experience, he adapts to where youth are today and where they want to be in the future, ultimately infusing forward-thinking best practices that advances the ambitions of young people and the stakeholders that serve them.”

Rashaun Bennett, Director of Operations, National Youth Employment Coalition

“Larry's webinars are such an asset to the field. He does incredible research and is able to distill this information into practical, useful, and fun presentations. NYEC has hosted Larry as a presenter for many years and the reviews from participants are consistently excellent. Larry has done more webinars for the National Youth Employment Coalition than any other presenter. The reason for that is his material is relevant, current, and impactful. We are big fans of Larry Robbin!”

As someone with a long career in workforce development including working for the Department of Labor and being a Director of a Workforce Development Board and now as the Executive Director of the California Workforce Association, I have had an opportunity to be acquainted with the work of the vast majority of the national trainers in the workforce development field. I have used the webinar training services of Larry Robbin on many occasions. Larry has been invited to present more often for the California Workforce Association events including our annual youth conference than any other trainer because he provides the highest quality and most innovative training of anyone in the field. He has an unmatched range of knowledge about the many types of youth served by the workforce system that comes from his many years of working in the field and from his extensive and ongoing volunteer work working directly with the youth we serve. Larry transforms the work of youth in our field to higher levels and his training gives youth ideas, strategies and results that they never imagined they could achieve. I highly recommend him to any organization.
