# ABOUT LARRY ROBBIN WEBINARS!

"Larry designed and led the development of our supported work program. He trained our youth and adult consumers, staff, partners and employers. His training was the key to the program's success. He worked closely with the Safeway Corporation and the Retail Clerks Union which opened the door for jobs for people with disabilities. Larry has a deep personal understanding of what it means to have a disability. When you couple this with his experience with employers and his incredibly effective training, you have an award winning combination. I strongly encourage any program serving people with disabilities to use the training services of Larry Robbin.

As someone with a long career in workforce development including working for the Department of Labor and being a Director of a Workforce Development Board and now as the Executive Director of the California Workforce Association, I have had an opportunity to be acquainted with the work of the vast majority of the national trainers in the workforce development field. I have used the webinar training services of Larry Robbin on many occasions including his presentations about disability and employment. Larry has been invited to present more often for the California Workforce Association than any other presenter because he provides the highest quality and most innovative training of anyone in the field. He has an unmatched range of knowledge about the many types of people served by the workforce system including people with disabilities that comes from his many years of working in the field and from his extensive and ongoing volunteer work working directly with the people we serve. Larry transforms the work of people in our field to higher levels and his webinars give people ideas, strategies and results that they never imagined they could achieve. I highly recommend him to any organization.
