As someone with a long career in workforce development including working for the Department of Labor and being a Director of a Workforce Development Board and now as the Executive Director of the California Workforce Association, I have had an opportunity to be acquainted with the work of the vast majority of the national trainers in the workforce development field. I have used the webinar training services of Larry Robbin on many occasions. Larry has been invited to present more often for the California Workforce Association than any other trainer because he provides the highest quality and most innovative training of anyone in the field. He has an unmatched range of knowledge about the many types of people served by the workforce system that comes from his many years of working in the field and from his extensive and ongoing volunteer work working directly with the people we serve. Larry transforms the work of people in our field to higher levels and his training gives people ideas, strategies and results that they never imagined they could achieve. I highly recommend him to any organization.
