As someone with a long career in workforce development including working for the Department of Labor and being a Director of a Workforce Development Board and now as the Executive Director of the California Workforce Association, I have had an opportunity to be acquainted with the work of the vast majority of the national trainers and consultants in the workforce development field. I have used the webinar, training and consulting services of Larry Robbin on many occasions. Larry has been invited to present at more of the California Workforce Association conferences than any other trainer because he provides the highest quality and most innovative training and consulting services of anyone in the field. His work is the state-of-the-art and yet very practical. Larry transforms the work people are doing to higher levels and helps his training attendees and consulting clients get results they never imagined. I highly recommend him to any organization.
